R.D.11.6.02 5734

The sanction &~~&~~ given by the Secy is irregular & the matter ought to have been submitted for orders — It is a matter for regret that such sanctions

With reference to the Dewan's order on the accompanying office note it is respectfully submitted that in February 1901, the President, Local Fund Board, Kadur Circle, sanctioned out of the grant of Rs,5000 made from Local Funds General in Pro.No.1757-8/L.F.15-99 dated 3rd August 1900, an estimate for Rs.481 for constructing a well at Bisalehalli in the Kadur Taluk. The work was accordingly given out on contract; but as the contractor did not ~~xxx~~ claim payment till the completion of the work and (as the work was in progress at the end of the year 1900-1901, the same was included in the list of incomplete works received with the President's letter No.152 dated 30th August 1901 in which an appropriation of Rs.481 was applied for. But as the list did not show that any expenditure had been incurred thereon, it was taken to be a new work, and no grant was sanctioned therefor in Pro.No.8412-20/L.F.29-1900 dated 3rd December 1901, in which it was observed that "if fresh grants are required, separate statements with estimates and other necessary information should be submitted for the orders of Government."

2. In the meantime, the President inspected the well in September 1901 and

※ Serial No 38.

found that it contained a good supply of water and was fairly well built.

3. In March 1902, that is 6 months after the completion of the work, the President submitted an estimate forthe same for Rs.578 on the ground that the original estimate for Rs.481 sanctioned by him in February 1901.had to be exceeded by Rs.97 owing to the well having had to be sunk deeper than 36 feet as originally estimated for, so as to secure an unfailing supply of water.

4. As the last para of the President's letter No.663 dated 12th March 1902 (serial 9) showed that the work had been completed, sanction was accorded to the estimate submitted by him and he was requested to point out direct to the Comptroller the source from which the charge could be met. The reason which led this office to make such a requisition, was, that the President might point out some provision in the District Fund Budget from which the charge could be met, seeing that no grant was made from Local Funds General (Vide Pro.No.8412-20/L.F. 29-1900 dated 3rd December 1901). If he did so, the necessity for approaching the Dewan for a grant from Local Funds General would have been avoided.

5. But as in para 2 of his letter No. 425 dated 14th May 1902 the President reported that the work had already been sanctioned by him from Local Funds General out of the grant of Rs.5000 allotted for well works in the District, in Pro.
